34. Resolution authorizing the lease of the Lealman Community Campus and Lease Agreements with the Children’s Educational Services, Inc. dba The Broach School St. Petersburg and Excellerated Teaching Center, Inc. for the use of space at the Lealman Community Campus.

Resolution No. 18-88 adopted and lease agreements approved. Broach School lease term is three years with three additional three-year renewal options; rent is $7,533.00 per month for the use of 10,044 rentable square feet of space. Excellerated Teaching Center lease term is one year with ten additional one-year renewal options; rent is $3,921.75 per month for the use of 5,229 rentable square feet of space.

Mr. Woodard introduced the item, indicating that Items Nos. 34 and 35 relate to the Lealman Community Campus; whereupon, Planning Director Renea Vincent provided a brief overview of the preliminary tenant selection process and, referring to a PowerPoint presentation titled Doing Things! Planning Department and Partners, discussed the following:

- Lealman Community Campus - Making A Property A Place!
- Preliminary Space Programming
- Tenant Status Update
- Next Steps
- Floor Plans for the Two-Story and Single-Story Buildings

Following the presentation, Mr. Woodard discussed the purpose for acquiring the property, the strategies for attracting and retaining tenants, the rationale behind the rental rates, and the different business models for the not-for-profit partners, noting that staff has determined that the building’s space and location would bring a fair market rate of $13 per square foot; that the leases under Item No. 34 would offer a discounted rate of $9 per square foot, which
will cover all County costs; and that the lease under Item No. 35 would offer a subsidized rate of $2.50 per square foot, allowing recovery of the estimated utility costs; whereupon, Ms. Vincent explained that establishing a grant program will help the County recoup some of the costs and attract long-term tenants.

In response to queries by Commissioner Eggers, Ms. Vincent related that the original Letter of Interest was intended to appeal to a broad range of service providers; and that the second will be more targeted while still allowing interested organizations the opportunity to apply; whereupon, Attorney White related that the lease process varies from other facility agreements due to the property’s location within a Community Redevelopment Area, noting that specific statutes allow for the solicitation of organizations that are committed to CRA-aligned activities and provide for below-market rental rates.

Responding to comments and queries by the members, Ms. Vincent discussed plans for overseeing facility and tenant operations, including proper staffing, managing public access to the common areas, and addressing safety measures and risk requirements, and Young Men’s Christian Association of Greater St. Petersburg President and CEO David W. Jezek discussed the funding options available to qualified applicants, noting that no families are turned away for their inability to pay. Real Estate Management Director Andrew Pupke, with input by Mr. Woodard, discussed the lease agreement terms, County costs for contracted services and facility maintenance, rentable square footage, tenant improvements, and contract rates and options.

A motion was made by Commissioner Eggers, seconded by Commissioner Beyrouti, that the item be approved. The motion carried by the following vote:

**Aye:**
- Chairman Welch
- Vice-Chairman Seel
- Commissioner Beyrouti
- Commissioner Eggers
- Commissioner Gerard
- Commissioner Justice
- Commissioner Long

**35.** Lease Agreement with The Young Men’s Christian Association of Greater St. Petersburg, Florida, Inc. for the use of space within the Lealman Community Campus.

Agreement approved; lease term is five years with three additional five-year renewal options; rent is $1,793.54 per month for the use of 8,609 rentable square feet of space.

Commissioner Seel indicated that the YMCA has applied to the Juvenile Welfare Board for project-related funding and suggested that the Board delay its vote on the item until the funding is awarded. In response to query by Commissioner Long, she indicated that the decision will likely be made at the November JWB meeting. Mr. Woodard related that YMCA President and CEO David W. Jezek has represented to staff that his organization plans to conduct the service and accommodate the lease independent of the JWB funding request; whereupon, Commissioner Long suggested that the item move forward.

In response to comments and queries by Commissioner Seel, Ms. Vincent related that notice was posted in the newspaper and on the County website; that no particular organization was targeted; that two other early learning/daycare organizations responded; and that the applications were reviewed by staff from several departments, as well as the Lealman Advisory Committee. Mr. Woodard discussed the outreach activities and
confirmed that there was a great deal of public engagement; that dozens of inquiries were received; and that the County knew that it would need to offer subsidies in order to attract the desired programs and services; whereupon, Commissioner Seel stated that she cannot support the item at this time.

Discussion ensued, and the members expressed concerns pertaining to notification of the lease rates, conducting outreach to other qualified applicants, YMCA’s previous relationship with the site and a perceived unfair advantage; and proper advertisement; whereupon, Attorney White verified that posting a notice in the newspaper fulfills the statutory requirement, and discussion ensued.

Redevelopment Planning Manager Rachel Booth discussed the applicants and the review criteria, and indicated that R’Club first contacted the County after the Letter of Interest process had been completed. She stated that the leasing opportunity was fully announced, and information was brought to the Advisory Committee’s attention throughout the process. Commissioner Seel noted that the JWB had previously discussed the possibility of a quality learning initiative in Lealman, and Ms. Booth indicated that the Letter of Interest and evaluation process acknowledged the service as a critical need.

Responding to queries and concerns expressed by the members, Ms. Booth indicated that the services would start on January 7, 2019, if the item were to be approved today; and that the YMCA Board is fully committed to self-funding the tenant improvements; whereupon, Mr. Jezek confirmed that his organization is not seeking reimbursement for the capital construction, furniture, fixtures, or equipment; that ongoing negotiations with the JWB pertain to operational funding; that the request would not be approved until January; and that the YMCA has offered community programs at the site for the last five years.

The members provided input and clarified that their concerns pertain to a competitive procurement process, not program content; whereupon, Mr. Woodard pointed out that the community development statutes do not require a competitive bidding process; and that staff is in full compliance with the law, and Ms. Vincent noted the advertisement and review timelines, relating that lease negotiations were well underway by the time staff received the R’Club inquiry in July.

Chairman Welch indicated that he would abstain from voting on the item due to a potential conflict of interest and, in accordance with the provisions of the Standards of Conduct Law, submitted a Memorandum of Voting Conflict form, which has been made a part of the record.

A motion was made by Commissioner Gerard, seconded by Commissioner Justice, that the item be approved. The motion carried by the following vote:

Aye: 5 - Commissioner Beyrouti, Commissioner Eggers, Commissioner Gerard, Commissioner Justice, and Commissioner Long

Nay: 1 - Vice-Chairman Seel

37. County Attorney Miscellaneous.

Attorney White congratulated Mr. Woodard on his long and respected career with the County and wished him the best in his future endeavors.

38. County Administrator Reports:
- Tampa Hillsborough Expressway Authority (THEA) - Partnership Opportunity
- Code Enforcement Liens, Foreclosures and Demolition - Proposed Approach

Mr. Woodard introduced the item; whereupon, Robert Frye and Christina Kopp, Director and Deputy Director of Planning and Innovation, referred to a PowerPoint presentation titled *THEA - Partnership Opportunities* and presented information regarding the following:

- What is THEA?
- Strategic Blueprint Overview
- What THEA Owns, Operates, and Maintains
- What THEA Means to Community
- Sketch Level Analysis Process
- Sample Toll Road Analysis - Scenarios 1, 2, and 3
- Project Development Process
- Next Steps
Following the presentation, Mr. Woodard related that there are local partners that can help the county in reducing transportation issues; and that formalizing those relationships will be important in moving the county forward; whereupon, he suggested that the members consider the proposed interlocal agreement between Pinellas County and THEA; and that a work session could take place during the first quarter of 2019 and formal adoption of the agreement shortly thereafter.

In response to comments and queries by Chairman Welch and Commissioner Eggers, Mr. Frye indicated that THEA is an agency of the state; and that it has been enabled to work in adjacent counties since 2015; whereupon, he provided information regarding governance, current projects, collaborative efforts, and the sketch level analysis process, and Mr. Woodard provided input.

Commissioner Long related that a funding workshop will take place in January regarding opportunities for transportation solutions, and suggested that Mr. Frye conduct his presentation before the Tampa Bay Regional Planning Council and Tampa Bay Area Regional Transportation Authority; and that the topic of toll roads be brought forward at the next strategic planning session; whereupon, Mr. Woodard provided further information regarding the path forward, and discussion ensued with input by Mr. Frye and Commissioners Eggers, Justice, and Long.

**Code Enforcement**

Mr. Woodard indicated that the item relates to a discussion started at the last meeting regarding code enforcement issues in the unincorporated area and tools available to achieve compliance; whereupon, Development Review Services Director Blake Lyon referred to a PowerPoint Presentation titled *Doing Things! Development Review Services & Planning*, and presented information regarding the following:

- Tools - condemnation/demolition, foreclosure, injunctions
- Benefits of a proactive approach
- Data analysis - 411 properties with Special Magistrate liens, 30% homestead exempt
- Priorities - health/safety/welfare, properties/owners with multiple violations, lien to property value ratio

In response to queries by Chairman Welch and Commissioner Seel regarding code enforcement issues, Mr. Lyon indicated that lien values on non-compliant properties can exceed assessed values by roughly 2 to 50 times; and that while there are mobile home parks included in those statistics, they fall under a different set of provisions, and Commissioners Eggers and Beyrouti provided input; whereupon, Mr. Woodard discussed methods by which the County can encourage and achieve compliance and presented information regarding a path forward.

57. (Q) Z/LU-11-06-18 (Pinellas Auto Sales)
A request for a zoning change from R-3, Single Family Residential to C-2, General Retail Commercial and Limited Services (0.32 acre) and C-2-CO, General Retail Commercial and Limited Services-Conditional Overlay (0.38 acre) with the Conditional Overlay limiting the use of the northern 220-foot portion of the property to the parking of vehicle inventory only, and a land use change from Residential Urban to Commercial General on approximately 0.70 acre located at 6789 Ulmerton Road in unincorporated Largo (a portion of parcel 30-16-70938-400-1302).

Resolution No. 18-95 adopted denying the request. Two letters in opposition were received in connection with the August 21 hearing, at which the case was continued.

Mr. Woodard noted that the item was continued to provide the applicant an opportunity to address code violations relating to the subject property. Principal Planner Michael Schoderbock provided an overview of the request, and referring to photographs of the subject site, related that he visited it yesterday and today with Code Enforcement officials, and the photographs were taken this morning; that several violations were discovered, including vehicles without license plates; outdoor automobile repair; an unpermitted storage
building, box trucks, and signs; remaining debris; and inoperable vehicles; whereupon, he indicated that staff recommends denial of the request due to continued violations and lack of proper maintenance of the property.

Responding to queries by Mr. Woodard, Mr. Schoderbock confirmed that additional violations have occurred since the first hearing, and Director of Development Review Services Blake Lyon provided further details regarding the violations relating to signs, box trucks, and automobile repair. In response to query by Commissioner Eggers, Attorney White indicated that testimony given by the applicant’s neighbors at the initial hearing can be taken into consideration today.

Upon the Chairman’s call for the applicant, Aneil Balkissoon, Largo, referred to photographs of the site, which have been distributed to the members and made part of the record, indicating that they were also taken this morning; that they demonstrate that the property has been drastically cleaned up; that the overgrown grass mentioned by his neighbor at the August 21 hearing has been cut; that the property would be very difficult to utilize as residential due to its dimensions and access issues; and that car parking is not a noticeable use, as compared to industrial uses surrounding other residential neighbors in the area.

Mr. Balkissoon discussed the citations, noting that despite his efforts to clean up the property, he received a ticket for having debris on a dump trailer, intended for cleanup; that violations such as the unpermitted shed, signs, and outdoor automobile repair have occurred because his request for rezoning has been in limbo; and that his neighbors are not being cited for committing the same violations, including grass overgrowth, debris, and unpermitted signs.

During discussion and in response to queries by the members, Mr. Balkissoon indicated that he has cleaned up the property considerably following the last meeting; that as a car dealer, he is licensed to own cars without license plates; and that he does automobile repair on the property; whereupon, Mr. Lyon explained that storing vehicles without plates on residential property is prohibited by the Code; and that under the C-2 zoning, automobile repair is required to be done inside a building. He and Attorney White further clarified that staff has changed its initial recommendation to approve the request based on concern over the applicant’s ability to maintain the strict conditional overlay requirements, given the demonstrated lack of compliance in the past.

In response to further questions by the members, Mr. Lyon indicated that while developing a residential unit on the site would be challenging, it is a viable option; whereupon, he and Mr. Schoderbock referred to an aerial map and provided further information regarding the request, the purpose of the overlay, and the commercial zoning requirements relating to automobile repair and fencing.

A motion was made by Vice-Chairman Seel, seconded by Commissioner Beyrouti, that the item be denied. The motion carried by the following vote:
Aye: 4 - Chairman Welch, Vice-Chairman Seel, Commissioner Beyrouti, and Commissioner Gerard

Nay: 2 - Commissioner Eggers, and Commissioner Justice
