SUBJECT: Quarterly Investment Report for the Period Ended December 31, 2016

DATE: February 15, 2017

Attached is the Quarterly Investment Report for the period ended December 31, 2016.

The following is a summary of key points identified in the attached Quarterly Investment Report:

✓ Total Portfolio - book value (at quarter end)	\$1,154,245,654
✓ Securities - book value (at quarter end)	\$715,381,988
✓ Securities weighted average maturity (WAM) (at quarter end)	1.33 years
✓ Realized investment income for three months	\$1,931,923
✓ Yield on short-term portfolio	
○ Quarterly composite yield	0.61%
○ Benchmark (3-month T-Bill)	0.43%
✓ Yield on long-term portfolio	
○ Quarterly composite yield	0.97%*
○ Benchmark (2-year T-Bill) – 3 month average	1.01%

\*As expected, in a rising rate environment coupled with Pinellas County's buy and hold strategy, this report reflects the two year Treasury exceeding the actual long term portfolio yield.

Thank you, in advance, for your attention to the attached Quarterly Investment Report. If you have any questions, please contact me at 727-464-8300.

### Investment Policy

Section 218.415, Florida Statutes authorizes the governing body of a local government to adopt a written investment plan to govern investment activity. The Board of County Commissioners (Board) adopted Section 2-144 of the Pinellas County Code, Investment of Surplus Public Funds, establishing policies for investing all County surplus funds controlled by the Board. All investment activity is conducted in accordance with Code Section 2-144 and additional written policies and procedures.

The Pinellas County Board of County Commissioners' investment policy and the ordinance can be found at <http://www.pinellasclerk.org/aspInclude2/ASPInclude.asp?pageName=investmentreports.htm>.

In accordance with the above laws and policies, the Clerk is required to submit a report on the performance of the County's investment portfolio quarterly and annually. In this Quarterly Investment Report, we show portfolio activity and performance, key economic indicators, portfolio summary and detail information and demonstrate compliance with policies.

### Portfolio Activity Summary

During the quarter, the cyclical influx of tax revenues raised the total portfolio by \$203.4 million to \$1.2 billion. The County's allocation in securities increased \$125.0 million. The long-term portfolio's quarterly composite yield increased to 0.97% as of December 31, 2016 compared to 0.89% as of September 30, 2016. Due to the current interest rate environment, securities are being purchased primarily in the 2-year range, but augmented with a few longer term securities. Portfolio activity for the quarter is shown on page 5 & 6 of this report. The long-term portfolio's weighted average maturity as of December 31, 2016 and September 30, 2016 was 1.33 years and 1.39 years, respectively.

### Portfolio Performance

Total realized investment income for the quarter ended December 31, 2016 was \$1.9 million; up \$311 thousand from the prior quarter. As expected in a rising rate environment coupled with Pinellas County's buy and hold strategy, this report reflects the two year Treasury slightly exceeding the actual long term portfolio composite yield. The short-term portfolio's composite annual yield was above its benchmark. The County placed funds in public funds depository accounts, secured by Chapter 280, Florida Statutes, and Local Government Investment pools providing above-market returns.

## Treasury Yields

In comparison to the prior year, all maturities rose between 13 and 35 basis points. As compared to last quarter, all maturities rose between 17 and 79 basis. The historical Treasury yields at quarter-end for the last five quarters are presented below.

<u>Maturity</u>	<u>12/31/15</u>	<u>3/31/16</u>	<u>6/30/16</u>	<u>9/30/16</u>	<u>12/31/16</u>
3 Month	0.16 %	0.21 %	0.26 %	0.29 %	0.51 %
6 Month	0.49	0.39	0.36	0.45	0.62
1 Year	0.65	0.59	0.45	0.59	0.85
2 Year	1.06	0.73	0.58	0.77	1.20
3 Year	1.31	0.87	0.71	0.88	1.47
5 Year	1.76	1.21	1.01	1.14	1.93

The **composition** of the portfolio is diversified to control the risk of loss resulting from the over concentration of assets in a specific maturity, issuer, instrument, dealer or bank through which investments are bought and sold. Diversification strategies are reviewed and revised periodically as necessary to meet portfolio objectives.

The **maximum allowable maturity** for any investment, except reserve funds, in the portfolio is five years; however we make every effort to match investment maturities with known cash needs and anticipated cash flow requirements. Funds needed to meet current operating requirements have shorter maturities, generally less than twelve (12) months. Bond construction funds, bond fund reserves and other non-operating funds have terms appropriate to the need for funds and, if applicable, in accordance with debt covenants.

As shown on page 9, our portfolio is in **compliance** with all limitations on authorized investments shown in the Pinellas County Board of County Commissioners' investment policy.

## Key Economic Indicators

*Federal Funds Rate* - The Federal Open Market Committee (FOMC) met in November and December voting at the December meeting to raise the target range for the federal funds rate to ½ to ¾ percent.

The Federal Reserve press release from the December FOMC meeting indicated "Information received since the Federal Open Market Committee met in November indicates that the labor market has continued to strengthen and that economic activity has been expanding at a moderate pace since mid-year. Job gains have been solid in recent months and the unemployment rate has declined. Household spending has been rising moderately but business fixed investment has remained soft. Inflation has increased since earlier this year but is still below the Committee's 2 percent longer-run objective, partly reflecting earlier declines in energy prices and in prices of non-energy imports. Market-based measures of inflation compensation have moved up considerably but still are low; most survey-based measures of longer-term inflation expectations are little changed, on balance, in recent months."

"Consistent with its statutory mandate, the Committee seeks to foster maximum employment and price stability. The Committee expects that, with gradual adjustments in the stance of monetary policy, economic activity will expand at a moderate pace and labor market conditions will strengthen somewhat further. Inflation is expected to rise to 2 percent over the medium term as the transitory effects of past declines in energy and import prices dissipate and the labor market strengthens further. Near-term risks to the economic outlook appear roughly balanced. The Committee continues to closely monitor inflation indicators and global economic and financial developments."

*Unemployment Rate* – Bureau of Labor Statistics has indicated that the unemployment rate decreased from 4.9% in September 2016 to 4.7% in December 2016. Initial jobless claims (seasonally adjusted) decreased from 254,000 for the week ending September 24, 2016 to 237,000 for the week ending December 31, 2016.

*Consumer Confidence* - The Conference Board's Consumer Confidence Index as of December 2016 stands at 113.7. The September 2016 Index was also revised to 103.5. "Consumer confidence improved further in December, due solely to increasing Expectations which hit a 13-year high (Dec. 2003, 107.4)" said Lynn Franco, Director of

Economic Indicators at The Conference Board. “The post-election surge in optimism for the economy, jobs and income prospects, as well as for stock prices which reached a 13-year high, was most pronounced among older consumers. Consumers' assessment of current conditions, which declined, still suggests that economic growth continued through the final months of 2016. Looking ahead to 2017, consumers' continued optimism will depend on whether or not their expectations are realized.”

*Consumer Price Index (CPI)* – “The Consumer Price Index for All Urban Consumers (CPI-U) increased 0.3 percent in December on a seasonally adjusted basis, the U.S. Bureau of Labor Statistics reported. Over the last 12 months, the all items index rose 2.1 percent before seasonal adjustment.”

“Continuing their recent trends, the shelter and gasoline indexes increased in December and were largely responsible for the seasonally adjusted all items increase. The shelter index rose 0.3 percent in December, while the gasoline index increased 3.0 percent.”

### **Investment Strategy**

Our “buy and hold” investment strategy is based on our current security mix (Treasuries, Government Sponsored Enterprises (GSE), depository accounts, etc.), projected cash flows, current and desired weighted average maturity (WAM), and interest rate projections. On average, economists are projecting short-term interest rates will increase to 1.34% by December 2017. We currently have 27.1% of our security portfolio invested in callable Agency securities. With a positive yield curve, short-term interest rates projected to increase over the next year, we anticipate investing primarily in the 2 to 3 year range of the investment curve. Concurrent with the projected influx of tax revenues, our objective is to have the long-term portfolio's weighted average maturity to approximate 1.20 – 1.50 years for the balance of this fiscal year.
